Reading materials created with eClipseWriter™ and read with eClips-eReader™ enables a multi-sensory approach to reading and writing with the ability to navigate and annotate accessible Daisy media. Carried into the workplace, these tools become life-tools for dealing with the flood of documents presented to every individual.

eClipseWriter Provides Three Unique Tools In One Application

Read Only Mode is tailored for high quality Scanning and Reading applications. All functions are control from the PC Keyboard Number PAD allowing novice or non-computer users to operate eClipseWriter as a simple scan and read machine.

Word Processor Mode includes all scan and read features plus a powerful reading and writing tool compatible with a wide range of document formats including: MS Word, Word DocX, HTML, XML, RTF, Dtbook, Text, and PDF. eClipseWriter's **automated Save As Daisy** document conversion wizard provides simple and fast daisy book production for personal use.

Advance Book Producer Mode enables features designed for the professional Daisy book producer. Output formats include: DAISY 2.02, DAISY 3, DAISY 2005, NIMAS DTbook. Book types include text only and full text with synchronized audio. Audio output formats include MP3, WMA, WAV, OGG, ASF, play-lists and DTB-DNA files for Daisy book network distribution and website library deployment.
